

Welcome to the Indiana Early Learning Hub!

The Indiana Early Learning Hub was developed to save early childhood directors both time and money so that you could focus on what you do best: serving children and families! By cutting the operating costs in your program and saving you countless hours, the Indiana Early Learning Hub hopes that you can reinvest these valuable resources back into your dedicated employees and the little Hoosiers you serve. The Indiana Early Learning Hub now joins 32 other states to offer this national digital resource.

Cost Savings, Job Board, Nationally Curated Documents, and More!

The most popular features of the Indiana Early Learning Hub are the cost savings, job board, and curated documents. We have taken all the hard work out of negotiating great deals or finding new providers by putting all the best deals in one place. Indiana programs have already saved upwards of \$2,800 annually! The early childhood job board allows you access to job description templates to edit and make your own. Once your job is created, the job posts to eight national job hiring platforms. Last, but certainly not least, is access to nationally-curated resources that can be downloaded and customized to meet your program's needs. You no longer need to spend countless hours looking for an exemplar document or creating documents for parents and staff from scratch.

Annual Membership Pricing:
